

#PortablyLoud
NanoBeat

Ctroniq Elari NanoBeat speaker can easily be paired via a Bluetooth enabled device and has an approx wireless range of a whopping 10m!

Ctroniq Elari NanoBeat is sure to surprise you with its unbelievably bold sound quality while being so compact that it easily fits the palm of your hand. With a premium matt metal finish it not only is compact and functional but extremely chic and stylish too.

This beast in it's category of palm sized portable BT speakers can also be used as a BT handset thanks to its in-built microphone.

It has a 3W speaker, a 400mAh battery and a frequency response of 20Hz to 20KHz. There is an additional feature of pairing TWO nanobeats with a single device and enjoying stereo sound effect!
