

Ctroniq  
**Snook T75**

Android | 7-inch | 2800mAh

Disappointed with your battery backup? Introducing the new CTRONIQ™ SNOOK T75 which is equipped with a rechargeable

2800mAh battery that offers a long runtime on a single charge.

The peril of low charge will not hinder what you're doing. The memory can be extended up to 32GB which makes the downloading

process of all your favorite games, apps, music quite easy. Snook T75 gets powered up by the advanced quad core processor that has a capacity of 1.3GHz which enhances the loading speed. A wide screen of 7" and MTK8735 CPU, makes the images look much bolder and clearer.

The compact design of CTRONIQ™ SNOOK T75 has been made for your hands for easy handling. With a light weight of 290g, this device is easily portable. The OS used here is Android 5.1, which makes the multi-tasking, a piece of cake.
