

Ctroniq
Snook C80L

Android | 8-inch | 3500mAh

The CTRONIQ™ SNOOK C80L Tablet makes use of the most innovative technology available to deliver an experience such as you have never seen before. It has a wide 8" IPS display which takes full advantage of the latest technology to provide you the realistic, rich and sharp picture viewing. The processor integrated is a Quad Core, 1.0GHz which makes this tablet more capable and work efficiently.

SNOOK C80L tablet possesses a dual camera facility; a 2.0MP rear camera and a 0.3MP front camera. The rear camera gives good resolution images and lets record videos. The front camera is certainly useful in taking those self-content selfies and video calls with your loved one.

You can carry the SNOOK C80L tablet anywhere you go; your portable partner every step of the way. It is embedded with 1GB RAM and 16GB flash memory where you can store all your documents which can be accessed easily when required.

Multitasking feels like a piece of cake when it comes to CTRONIQ™ SNOOK C80L Tablet. Now you do twice the work within the same time span.
