

Ctroniq
Wiz 3 Plus

Android | 5-inch | 2050mAh

Ctroniq Wiz3 Plus strikes the right balance between style and performance. The 5.0inch HD IPS touchscreen delivers marvelous color consistency as well as crisp clarity even in broad daylight and looks eye catching in a metallic finish. Running on an MediaTek MT6580 chipset with a Cortex A7 Quad Core processor clocked at 1.3GHz, this phone efficiently handles tasks and applications. The Android Lollipop OS simplifies using this phone on a day to day basis for you. This smartphone incorporates a lot of features, apps, and a user friendly interface. On the entertainment front, this device gives you a 13MP rear camera and a 5MP front camera with flash, along with an excellent audio experience to match up the phone's excellence. Support for 3G connectivity lets you use this phone to conveniently connect to the Internet while you are on the move. An 8GB built in memory lets you use this smartphone to store and carry important data as well as high quality multimedia. Providing all the power to run apps and perform tasks is the mighty 2050mAh battery.
