Designed for those who want a great calling experience and music on-the-go, the new Ctroniq Vimba HSI headphones have been developed with voice and call-quality as top priority.

Ctroniq Vimba HSI delivers a superior call experience thanks to the high-quality microphone with integrated noise protection, enhanced voice capabilities and immersive, full-spectrum sound through its 10mm speakers it is intended to be used all-day, every day.

The Flat cable tangle-free design means the entire 1.2m length of high-quality headset cable remains untwisted and never gets tied up into frustrating knots so you may immediately use the headset when needed.

Compatible with all devices with 3.5mm earphone jack hub and available in White & Black to best suit your colour preference.
