

Ctroniq
Bond VR004

Wearable Virtual Reality

CTRONIQ Bond VR004 is sure to leave you awestruck with features like never before. It is compatible with any android, IOS and Windows phone, with the suggested size between 4.7 to 6 inches. The device weighs just 396g, with the dimensions of 194*130*135mm, making it easily portable and lightweight on your eyes and makes it possible to enjoy movies, games and other content in 3D, whether you're standing, sitting or lying down. Simply snap on the VR004, plug in those headphones, and the world will be shut out until you resurface.

HIGH QUALITY LENS:

CTRONIQ Bond VR004, has its lens made from Resin, with aspheric optical lens design which protects your eyes from visual fatigue and dizziness. The transparent cover is made up of environment-friendly polycarbonate and the high gloss transparency of the cover, enhances the visual reality effect.

BUILT FOR COMFORT

CTRONIQ Bond VR004, is just the product you need for your ultimate entertainment. It's lightweight, which makes watching videos and movies or playing games more comfortable. Usher into the next generation with this device.
